MANUAL CHANGES:

The enclosed manual may be used in its entirety for the **1991** version of SWIFTAX, with the following exceptions:

Schedule 1 for Form 1040 has changed. Please change the information on Page 22 of your manual to read:

Schedule 1

Use this schedule if you received more than $400 in interest or dividends.

Add Schedule 2 and Schedule 3 for Form 1040A immediately after Schedule 1 on Page 22.

Schedule 2

This schedule is for calculating a tax credit for amounts you paid someone to care for your child or other qualifying person so you could work or look for work. The credit, which is based on a percentage of the amount you paid during the year, will lower your tax.

Schedule 3

This schedule is used to figure the credit for the elderly or the disabled. You may be able to take the credit if, by the end of the year:

- You were 65 or over, or
- You were under 65 and you retired on permanent and total disability and you received taxable disability income.

- FORM 8615—On Page 27, replace the first paragraph with:

    - For children under age 14, investment income (such as taxable interest and dividends) over $1,100 is taxed at the parent's rate if the parent's rate is higher than the child's rate.
